

Equipment Agreement

The NU Nordic Team will loan ski equipment to team members. The athlete may leave the equipment in Team Storage or take it home with them so they may train independently of the team. It is recommended that all boots be taken home and dried after each use. The only exception to the above concerns roller skis. Team roller skis can only be checked out for independent use when the coaches are satisfied that they will be used under the direct supervision of a qualified coach. If you wish to roller ski independently, you will have to purchase your own roller skis.

I understand that the equipment itemised above is loaned to the athlete for the 2017-18 ski season and must be returned in clean condition by the end of April 2018 (or sooner should the athlete leave the team). Normal wear and tear of the equipment is acceptable, but damage or loss caused by reckless or negligent behaviour is not. I understand that I must pay to replace any lost or damaged equipment (Education Code 48904, subd. (b)(1)).
